Activity One

Watch the video, 'What is a lightship?'

In the video we are told about the 4 features of the LV50 that helped it save lives:

- The Flashing Light
- The Fog Horn
- The Signal Carronade
- The Top Mark

On the blank diagram below, label where each of these features are located.

Activity Two

Match each feature to its job.

The flashing
light

To sound a very loud,
last-minute alarm

The
fog horn

Other vessels see this and
it warns them of danger

The
signal
cannonade

A raised ball allows the
LV50 to be seen from
further away

The
top mark

When it was too cloudy or
foggy to see the light, ships
could hear this instead
